HOUSE COMPLETE

804 Whiterock Space, Style & Smart Design

Step inside and immediately feel the difference with soaring 2740mm ground floor ceilings and 2590mm upstairs, paired with year-round comfort from Fujitsu ducted air-conditioning.

Designed for modern family living, the ground floor offers a dedicated home office, separate leisure room and a spacious open-plan kitchen, dining and living zone that flows seamlessly outdoors. The kitchen is a true standout, featuring Fisher & Paykel appliances, including a double oven, induction cooktop and integrated ventilation, complemented by sleek 40mm stone benchtops and a fully equipped butler's pantry.

Upstairs, clever zoning creates the perfect family retreat with an additional lounge and a privately positioned master suite complete with walk-in robe, ensuite and its own balcony. Every bedroom includes a walk-in wardrobe, ensuring space is never compromised.

Entertain with ease in the grand outdoor area with built-in BBQ and pizza oven, while the oversized garage with workshop space adds practical flexibility.

Luxury, lifestyle and liveability, all beautifully brought together.
